

Creative Process-Seminar 7.26. – 8.1. 2026
in the Ticino Mountains / CH

with Sonja Seng & Regula Friedli

CREATIVE-Seminar from July 26th – August 1st 2026 in Ces - Ticino (CH)

Somatics & Tamalpa Life/Art Process® in Nature with Sonja Seng & Regula Friedli

A Creative immersion in the Ticino mountains:

We start the day feeling fully refreshed: after an invigorating shower under the nearby waterfall, Regula welcomes us to morning **Qi Gong** on the wide mountain meadow plateau of Ces.

Sonja then guides us into **The Creative Process**. Alone, in pairs, or in a group, we immerse ourselves in the surrounding nature. We let ourselves be inspired by the landscape — by the plants, animals and the elements with their very own rhythm and movement.

Based on these body-oriented encounters, we develop "scores" (creative instructions) for our joint improvisations. Whether through dance, drawing, writing or photography – the expression of bodily experience within nature is diverse, unique and immediate. No prior experience necessary. Our sources of inspiration are the "**Nature Explorations**" of the artist couple Anna & Lawrence Halprin (Tamalpa Institute, California) and the "**iLANDing Project**" of the New York based improvisation collective around Jennifer Monson. With a lot of time and space we'll explore and enjoy the beautiful landscape of Ces / Ticino.

Course leaders:
